# VISUALIZING DATA ASSET GROUPING

Home Views ▼ Filters ▼ Setup ▼ Info ▼

Active filters: Date range: Year-To-Date, Date: Fri Apr 05, 2013, Group: 2x1

Groups: (New) ▼ Name:  Save Delete

Select Category. Drag between 'Assets' and 'Selected Assets' to (un)select. Drag selected assets to reorder.

Asset Categories	Assets	Selected Assets
Enterprise <a href="#">Magnolia</a>	Cell_3	Drop selected assets here...
Location <a href="#">Algonquin, IL</a>	XL1	
Plant <a href="#">Amsterdam</a>	XL12	
<a href="#">Leerdam</a>	XL3	
<a href="#">Rotterdam</a>	Cell_3	

Dragging from Assets into Selected Assets to select (make part of group).

Groups: (New) Name: Save Delete

Select Category. Drag between 'Assets' and 'Selected Assets' to (un)select. Drag selected assets to reorder.

Asset Categories	Assets	Selected Assets
Enterprise Magnolia	Cell_3	Cell_3
Location Algonquin, IL	XL1	XL1
Plant Amsterdam	XL12	XL12
Leerdam	XL3	Cell_3
Rotterdam		

Dragging within Selected Assets to change display order. Red (border) indicates warning (not error): device is present multiple times in selection.

Gray border on left indicates that device is already selected.

Displayed devices/assets are 'preview', based on selected query criteria (category/category member/ AND vs. OR), showing outcome of current selection criteria. Unlike groups, queries are dynamic: if new devices are added later that match criteria, they will automatically be included.

Queries: (New)   Personal Query

Select Criteria: one or more categories, with category values. Select whether all criteria must be met, or at least one.

**Asset Categories**

Assets must match a value in all categories with values checked ('AND')  
 Assets must match a value in at least one of the categories with values checked ('OR')

Enterprise  
 Magnolia

Location  
 Algonquin, IL

Plant  
 Amsterdam  
 Leerdam  
 Rotterdam

Once logged in, you have the option to save personal/private queries and groups.

OEE Alert is a browser-based Intranet application that lets you see all of your Vorne XL Productivity devices on a single screen.

Using both the XL Bolt-On Data Collector and direct access of your Vorne XL devices, we provide you with both up-to-date operational information as well as a historical perspective.

Views include:

- Production state (Run, Down, Standby, Setup) over time, as well as summarized by state, for any period.
- Hour-by-hour statistics, showing how well your assets are doing from hour to hour.
- Reason code summaries, showing your top 5 or 10 most common down reasons for all devices, for any period.
- Direct display of the current data on the Vorne XL display.

**Call now for a free demo of OEE Alert!**

**We also offer a 35-day free trial of OEE Alert**

[www.OEEAlert.com](http://www.OEEAlert.com)

### Prerequisites

The application requires the [XL Bolt-On Data Collector](#) to be installed with a version of MSSQL server database and the IIS webserver (can all be on one PC). The application requires IE8 or higher, Safari, Opera, Firefox or Google Chrome, with JavaScript enabled. This application can be customized to your specific requirements.

### Contact information
